

THE UNIVERSITY OF CHICAGO

WOOL MARKET NOT IN PANIC SAYS DIRECTOR

Reference to Ottawa Shows That
Report Current is Not
Correct

Recently the Dominion government issued a bulletin which was taken to mean that the wool market in the Dominion was bordering on a state of panic. This information was so surprising that W. J. Stark, who is secretary of the Alberta Provincial Sheep Breeder's association, wired to Ottawa, to the live stock department, and the information which has been given in reply goes to show that the government bulletin was taken too seriously and that in fact the market is not only not in a state of panic but is in a very good condition.

Alberta Director Speaks
J. W. Heston, manager of the Western Stock exchange and the Alberta Director of the Canadian Co-operative Wool Growers' association, was in the city on Saturday, and during the afternoon an interview was had with him. He was in entire disagreement with the government bulletin and could not understand just why such a statement was issued. He said there was absolutely no panic, and as a matter of fact he had received confirmation through the association of the sale of wool. The price for such as Oxford, Hove and others, is 15 cents. The wool is high as in the past, and coarse wools have been disposed of from 24 to 25 cents.

Market Settling Fast
There is no lack of demand. The market is full, but sales continue to be made at the price of the wool. The Co-operative Wool Growers' association is holding the wool which they have received from the various provincial associations for the purpose of retaining their equilibrium. The price of wool is now being quoted for Canadian wool, according to Mr. Heston, is still higher than the price for wool obtained for the best American wool in Boston. This is the best wool that Canadian sheep can produce, and he would say that the market is not in a state of panic.

On the amount of wool shipped for sale through the Ottawa Co-operative Wool Growers' association in the month of September, Mr. Heston said that the amount was 1,000,000 lbs. per cent. Last year, the amount was 1,000,000 lbs. per cent, and this year it will be seen that the amount is not less. Mr. Heston says that while of course, price may fluctuate, he does not think there is any possibility that the market will steady itself, and just as soon as the demand begins again, which he most certainly does do, the price will be as good as new.

To Sheep Men
On Wednesday and Thursday of this week, the live stock show and sale, under the auspices of the Alberta Provincial Sheep Breeder's association, is being held in the city. Every arrangement for the comfort of man and beast has been made, and it is expected that there will be a very fine sale. The information which has been given about the wool market should make the sheep men happy, and no doubt the confidence which they have shown in placing their wool through the association will also be reflected in the sale which begins tomorrow.

P. H. JOHNSON TAKEN BACK TO UNITED STATES

Will Face Trial in Norfolk, Conn.,
for Embroidering of Twenty
Thousand Dollars

Perfection H. Johnson, alias Wilbur H. Percell, who for the past week has been detained in the cells of the Alberta Provincial Police pending his return to the state of Connecticut, where he will be tried for embezzlement from the town of Norfolk amounting to approximately \$20,000, boarded the train today night for his return across the international boundary. Sheriff Heston, of the Connecticut state police who was charged of the arrest.

Johnson is alleged to have forced some in the county seated while in the custody of the town of Norfolk were in possession of a great number of counterfeit notes and also stolen automobiles.

Funerals

OLIVE BOB THURMOUTH
The funeral of Olive Bob Thurm, daughter of Mr. and Mrs. J. Thurm, of 1814 1/2 St., will be held at the family residence, Tuesday afternoon at 2:30. Interment will be made in the Mount Pleasant cemetery. Mr. D. G. McNamee, of the service and Wm. Heston, of the funeral arrangements.

MOTHER! "California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs as a sure-look for the same California on the picture, then you are sure your child and yours. Children love its fruit taste. Full directions on each bottle. You must say "California" when you buy.

LADIES! DARKEN YOUR GRAY HAIR

Look years younger! The Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. Also used to keep hair beautifully dark, glossy and attractive. Whichever for hair loss or that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But knowing it to be so many and out-of-date. Nowadays, by using any drug store, you can get a bottle of "Wet's Sage and Sulphur Compound." It will get the same old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downy downy drop and heavy to the hair. It is a sponge or soft brush with it and draw the mixture through the hair, taking care to strand at a time. By morning the gray hair will be gone. After another application or two it becomes beautifully dark and glossy. Wet's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

OLD RESIDENT OF MORINVILLE DIES IN CITY

Orville Roppel, One of First Settlers
Passes Away at Age of 62

Orville Roppel, one of the first residents in the Morinville district, died at the age of 62 years in the General Hospital Monday night, after an illness of several days.

For thirty years the late Mr. Roppel resided in the Morinville neighborhood, being one of the first settlers in the Morinville district. He was the son of a pioneer settler, and was one of the first settlers in the Morinville district. He was the son of a pioneer settler, and was one of the first settlers in the Morinville district.

4-Days Sale of Women's High-Grade Ready-to-Wear

We are giving you the full benefit of several shrewd, wide-awake business transactions which we succeeded in carrying, through recently, whilst our buyer was in the eastern fashion trends. This is the first step in the downward trend of prices, and we hope to announce many more like instances from time to time in the near future. The offerings for the first day of the sale are given below, to be followed each successive day by others equally as good.

WEDNESDAY, THURSDAY, FRIDAY and SATURDAY

Velour and Silvertone Fur Trimmed Coats Regular \$65.00—Clearing Wednesday at \$49.75

One glance at these beautiful Coats will convince you of the fact that they are real good value at the regular selling price. However, as we secured them from the manufacturer at a big price concession, we are giving you the full benefit of the transaction on Wednesday. They are tailored of the finest quality wool velour and silvertone with large seal collars. They are lined throughout with figured lining. Most of them are belted styles. The colors are brown, reindeer, oxford and navy. A good assortment of sizes. Regular values to \$65.00. **\$49.75**

Wednesday 9 a.m. at

These Stylish Jersey Dresses An Extraordinary Value at \$29.75

Such a price is remarkable during these days of high costs. The material could hardly be purchased for the price today. They are stylishly made in colors of navy, sand, oxford, brown and reindeer. They are heavily embroidered on the waists, around the neck and also over skirt. Shoe string belts, long sleeves, waist lined. All sizes. Extraordinary value at **\$29.75**

Second Floor.

THANKSGIVING DANCE

The Thanksgiving dance given to Jasper Place schoolchildren, Monday night, under the 15th street. Community League, was a decided success. A number of new residents in the district, being present, had the opportunity of meeting the "old timers" and of being given a hearty welcome. The orchestra employed by the league for the winter gave good service, and there was a surplus for the general funds of the league after all expenses had been paid.

WEDNESDAY, OCTOBER 26, 1920.

The Wheat Board

The Toronto Mail and Empire "steps on" the proposal to revise the wheat board in a way to suggest that it was intended to break the news gently but plainly to the farmers that they need not look to the directors of the Government for help.

"The demand from the West for re-establishment of the Wheat Board, to which the farmers of the world market have turned, is a demand that the world have made a remarkable difference between the wheat of Chicago and Winnipeg, and wheat from the United States and Canada is growing on an unswerving market. The only reason for this is that the Canadian wheat board would be taken over by the United States, and the other European countries were willing to pay the same price for it."

This is a pretty plain admission that the wheat board was abolished because a drop in the world price of wheat was foreseen. In admitting that the claim that the wheat board got the farmers more for their wheat last year than they would get without the board is badly discounted. If the board would be of no service to the wheat-growers this year because it could not control the world price, the conclusion seems plain that it was of no use to them last year for the same reason.

That the wheat board could not bolster up prices in Canada where they are falling elsewhere is apparent enough, unless the government financed the board to go into speculation on a grand scale, buy up the whole national crop and hold it for a rise. But buying for a rise when the price is going down and is still far above normal is not the kind of speculative enterprise that the finances of the country are good condition to stand.

The fact of the matter is that the wheat board was set up a time when there was not much need of it, if any, and was abolished when it became apparent that it could not operate longer without losing public money or costing the Government some prestige. Prices last year did not need stabilizing, but the Government, through the wheat board, got a good deal of credit for holding them steady without much risk of season's operations. When the time came that responsibility had to be assumed, and that there was not much chance of collecting any more credit for sustaining prices, the board was called off.

It is hardly likely to be re-established, unless prices take an other upward swoop with a prospect of staying up. The wheat board was the agent through which the Government speculated in wheat for political profit. The Government is not inclined to speculate on anything but a "sure thing" basis.

Who's Who?

For Mr. Ballantyne, Minister of Marine and Fisheries, says he is not interested in the sugar business, having sold out his holdings in the St. Lawrence Refining Company last spring. The Minister is to be congratulated on two counts. One that he is not involved in the scandal of standing to profit through the recent order of the Board of Commerce. The other that he does not stand to lose through the shrinkage in value of sugar stocks. Having taken the profits on the rising market, he had the foresight to get from under and let someone else take the consequences when the inevitable drop should come.

So far as they are interested in his speculative operations the public will only regret that Mr. Ballantyne does not show as sound judgment in handling the national Merchant Marine as he showed in getting rid of his sugar stock.

When the prospect of lower sugar prices can be known that it was time to unload his refinery's reserves. But despite the dropping rates for ocean freight and the prospect of the world having more ships than can find business, Mr. Ballantyne got right on building up his stock of public money and imposing their prospective operating losses upon the national treasury. For the same reason that last spring was a good time for Mr. Ballantyne to get out of the sugar business, the present would be a good time for the country to get out of the ocean freight business. But while he got himself out, the Minister persists in getting the country in.

As to sugar, the disclaimer of the Minister does not meet the point. The declaration that he is not personally interested is good so far as it goes, but it does not go far. The order of the Board of Commerce intended to enable the refining companies to unload their supplies on the public at artificially inflated prices.

Stocks of the companies were held by the Minister of Marine and Fisheries and his cabinet colleagues by other parties makes no difference as to the effect of the order. Twenty-one cents, plus freight, is the same price that prisoners have a half dozen hank saws among them, prison officials give out the same surmise that they intended to saw through the window bars and get out. A hank saw is a thing that is not intended to be picked out of a teeth or paring corners, that would seem to be a likely-looking guess. Seeing that the hank saws have been used to smuggle in hank saws, dynamite, and other kinds of forbidden things, an alternative conjecture might be that they intended to saw the wooden heads off some of the guards for souvenirs.

Mr. Ballantyne says he is not financially interested in sugar at this time. He is entitled to be believed. But for the world price of sugar stock and got rid of it not long ago—when the decline in prices have into sight. If one Minister has been unloading sugar stocks perhaps others have been doing the same. Whether so or not, the securities are evidently held by parties whom the Government does not intend shall suffer through the decline in prices if the loss can be imposed upon the public. The theory that the Board of Commerce acted without knowing what the Government was doing is not likely to get much attention. Governments do not govern that way in this world. Was it understood, when Mr. Ballantyne perhaps his colleagues—unloaded sugar stocks, that the purchasers would be saved from the artificial holding-up of prices?

Special Instructions Not Needed. Premier Meighen says the Government didn't refer the sugar question to the Board of Commerce. It wasn't necessary. The board knows what it is there for.

Eventually, If Not Now. Zurich reports that a revolution has broken out at Moscow. The report may be premature, but the thing is bound to come. Piracy cannot be permanent—just because it is piracy.

Edmonton Is the Place. The trans-Canada flight wound up somewhat ingloriously in a British Columbia fog. If we are to have an "ocean to ocean" air service, it may be necessary to land its western part somewhere this side of the Rocky mountains.

Cold Hearts In Prospect. What the tie-up of the British coal mines will mean to the householders is suggested in the announcement that "Government orders will limit the consumption of domestic coal to one hundred pounds weekly per household."

That is just about enough to get the family cook-stove going for a day in these chilly times.

Going and Coming. The Eastern Refiners have shut up shop and declare that they will not sell sugar unless they can sell it at a profit. Then how would it be to let them keep it, take off the duty and let the public buy sugar where they please? The refiners were willing enough to keep the price of sugar high when they were going up. Having "soaked" the public on the rise they have no claim to be allowed to do it again on the decline.

Of Two Dangers

People in New York are buying sugar at ten to thirteen cents per pound. The dictum of the Board of Commerce was that the Canadian people should pay twenty-one cents per pound plus freight or without sugar. And the order would have stood if the public had not refused to submit to the swindle; it may stand yet, in fact. This depends on whether the Government is more afraid of the public than they are of the refiners.

All But the Name

The Sinn Féin leaders profess to think that Lloyd George's recent speech amounted almost to a declaration of war against them; while the Premier very plainly implied that he was strongly inclined to regard certain recent occurrences in Ireland as acts of hostility on the part of the Sinn Féin towards the Government. Meantime it is reported that a military force has captured the city hall at Cork. Ireland may not be technically in a state of war, but all that seems to be lacking is the declaration of intent.

Wanted to See Something

Having discovered that prisoners at the Kingston penitentiary have a half dozen hank saws among them, prison officials give out the same surmise that they intended to saw through the window bars and get out. A hank saw is a thing that is not intended to be picked out of a teeth or paring corners, that would seem to be a likely-looking guess. Seeing that the hank saws have been used to smuggle in hank saws, dynamite, and other kinds of forbidden things, an alternative conjecture might be that they intended to saw the wooden heads off some of the guards for souvenirs.

Bulletin's Mail Bag

Letters on subjects of current interest will be published in this column. Each letter must be accompanied by the name and address of the writer, but such communications will be treated as anonymous should the writer so desire. Correspondents should be sure to give their full names and addresses.

CHARGE AGAINST AID EAST

The Bulletin.

It is worth to have the privilege of making a correction in the statement regarding my charge against Alderman East.

I made the statement that "out of the three hundred members of the convention at Montreal, Alderman East was the only delegate who proposed and voted against the resolution to prohibit the use of the House publications in the Great War Veterans' association club rooms."

It has been drawn to my attention that in this I am inaccurate. There were others who both voted and proposed.

In fairness to Alderman East, I wish to ask you to publish this and at the same time I wish to express my sincere regret that my memory was so at the instant at fault. Sincerely yours, G. E. MORRISON.

MR. WALLACE HOWE AND PROHIBITION

Editor Bulletin.

Sir—Laks Mr. Howe, I was at the prohibition convention in Toronto, and I am sure that you are not wishing to enter into a press conference to unbalanced. I only trust that you will not be misled by the speaker and answer it. Your correspondence is in the hands of the editor.

Let it be quite right in stating that the speaker said, "Alcohol has no place in the human body at all." The statement of Professor Hendrickson was not a statement of fact, but a statement of opinion. I am sure that you will not be misled by the speaker and answer it. Your correspondence is in the hands of the editor.
